

## Professor Health Economics

Exceptional candidate required to lead world-class research

- **Appointment Type:** Full-time, continuing academic appointment.
- **Macquarie University (North Ryde) location**

### The Role:

We seek an exceptional candidate to undertake health and human services research. Working jointly within the Department of Economics and the Macquarie University Centre for the Health Economy - MUCHE, the Professor of Health Economics will have the unique opportunity to lead health economic research both independently and collaboratively across Macquarie University.

### About You

You will be an intellectual leader in health economics, with extensive experience working with government and non-government organisations and contributing to public policy debates. To be successful in this role, you will have a well-articulated research agenda, a record of high-quality publications and the proven ability to work effectively with a diverse research and department team. You will be responsible for expanding research output, developing leadership capabilities, teaching in related courses, mentoring and external engagement activities within MUCHE and the Department of Economics.

### About Us

The Department of Economics is one of the largest Economics Departments in Australia, our researchers have a wealth of international experience gained at some of the world's most prestigious universities, businesses and government organisations. With a long tradition of research excellence in many subfields in Economics, our current research strengths cover macroeconomics and financial economics, applied econometrics, health economics, behavioural economics, development economics and ecological economics. We have real strengths in the economics and policy making that relate to the economies of South East Asia.

Macquarie University Centre for the Health Economy (MUCHE) is a research centre established within the Faculty of Business and Economics as a strategic initiative to undertake innovative research on health, ageing and human services. Its vision is to create a world where decision makers are empowered with applied, trusted and influential research into health and human services policy and systems. MUCHE undertakes research funded by competitive academic grants, and research funded by government and non-government organisations. It undertakes policy analysis and economic evaluation across five strategic areas, including integrated care, mental health, health technology, disability and aged care.

The Faculty of Business and Economics is on an exciting journey and aspires to be recognised as a leading global centre of business education and research. We have brought together the Macquarie Graduate School of Management (MGSM), Macquarie Applied Finance Centre (MAFC) and the Faculty of Business and Economics (FBE) into a single coherently led business school, creating opportunities for innovation and investment in our courses and our research strengths. Our courses are highly regarded by key industry bodies including the top ranked MGSM MBA, the country's longest-running and renowned actuarial studies program, as well as respected programs in accounting and finance.

At a University level, Macquarie is a university engaged with the real and often complex problems and opportunities that define our lives. Since our foundation 54 years ago, we have aspired to be a different type of university. Over the years, we've grown to become the centre of a vibrant local and global community.
